I have over 20 years experience as a Sound Editor. I was awarded an **EMMY** for "**Outstanding Sound Editing**" on "**Frozen Planet**". I have also received two other **EMMY** nominations. I worked on four of the David Attenborough "Life" series, and was awarded a **BAFTA** for my contribution to "**Life of Birds**" and a **BAFTA** nomination for "**Life in the Undergrowth**".

Together with my partner, award winning Sound Editor Angela Groves, we are **SynergySound Limited**. We specialise in natural history films and are committed to producing high quality, creative and appropriate soundscapes at a very competitive rate.
